LANGUAGES

English - B2
Hungarian - Native

SKILLS

- HTML, CSS
- JavaScript (basic)
- C#
- WPF, WFA
- ASP.NET Core
- SQL Server
- Network Engineering
- IIS, web server administration
- Figma design system
- Git
- Docker
- Node.js

HOBBIES

Home Server & Homelab

Developing and operating my own applications on Windows Server using an IIS, Docker, SQL Server, and Tailscale stack. Multiple self-developed ASP.NET Core projects run in parallel.

Photography and cycling

Budai Bence

JUNIOR SOFTWARE DEVELOPER AND TESTER

I am a junior software developer and tester with experience in ASP.NET Core web and API development, SQL Server database management, and IIS administration. I operate my own homelab infrastructure on Windows Server using Docker, Tailscale, and Pi-hole. I am currently studying at the John von Neumann Faculty of Informatics (NIK), Óbuda University.

Online portfolio: itsmebencebudai.github.io

EXPERIENCE

IT Intern

HUN-REN Hungarian Research Network | 2024 – 2026

- ASP.NET Core web and API development with a Razor Pages frontend
- SQL Server database design and management with Entity Framework Core
- IIS administration and ARR reverse proxy configuration
- Development and maintenance of internal web applications
- Helpdesk support and system administration

FEATURED PROJECTS

Windows Server Homelab

Windows Server 2022 · IIS · Docker · Tailscale · SQL Server

Custom infrastructure running multiple ASP.NET Core applications in parallel, including MailHub (notification hub), ShellRunner (remote PowerShell), NetMapper, and other internal tools.

HomeGit

ASP.NET Core · Razor Pages · LibGit2Sharp

A custom Git repository management system for managing local repositories through a web interface. Supports branch, commit, status, and clone operations from a central interface as part of the homelab infrastructure.

EDUCATION

Óbuda University - John von Neumann Faculty of Informatics (NIK)

Computer Science Operations Engineer (BProf, bachelor's programme)
2024 –

BMSZC Bolyai János Technical School and Dormitory

Software Developer and Tester qualification (OKJ)
2023 – 2024

BMSZC Bolyai János Technical School and Dormitory

Vocational secondary school - Office IT qualification
2019 – 2023
